

A man in a dark, crocodile-patterned leather jacket and a black turtleneck stands in a dark, cave-like setting. He is holding a matching crocodile-patterned leather bag. In the background, a motorcycle is partially visible. To the left, a large, textured object, possibly a piece of leather or a bag, is shown. The overall mood is sophisticated and rugged.

Our fondest memories, strongest feelings and most evocative scenes usually come from nature. We wanted to use this to create the perfect 'nest' for a sophisticated habit and to make it a proper event. Smoking can be an art. Whether cigar, cigarette or pipe. Small sophisticated masculine rituals to be followed with traditional gestures. Better still if secluded in a smoking room and deep in a comfortable armchair.

Precious materials worked in different ways, smoothed or sanded to enhance their strength and natural characteristics. Hartebeest, buffalo, springbok, kudu horn, inviting nature at home. Smoking sets and ashtrays take on unique shapes, interpreting wildlife morphology and using combinations of metal and horn.

Stag antlers are deciduous bones growing seasonally. For this reason, in the ancient Celtic culture the beautiful stag antlers were considered as an important symbol: they represented life, rebirth and the passing of time. The antlers collected at the end of winter are very solid and require a complex processing procedure, which results in the creation of elegant and country-like objects.

Since prehistory, horns represent an important source of raw material; extremely resistant to wear processes, every single part of them is employed to make a very wide range of functional or simple ornaments. We select horns from different animal species, collected at the end of their normal life cycle. Every typology owns different organic features which get particularly enhanced through subsequent processes of rough-hewing and polishing. Every precious fragment is the result of the harvesting of what nature is willing to offer, while respecting the authentic biological path of animals.

The mother of pearl, whose beauty and perfection have originated several legends, today is still used as an extremely refined decoration for precious objects. Our craftsmen select two main varieties of mother of pearl: Pinctada maxima, white with green, silver or golden shades, coming especially from Australia and the Southern Seas, and Pinctada mar-garitifera, from the Fiji Islands and Tahiti, with different shades from white-grey to the deepest black.

DESK AREA & ACCESSORIES

A sculptural presence for the desk. Functional, tactile, unexpectedly free.

This paperweight is more than a desk accessory—it is a refined design object, crafted from natural travertine and finished with contrasting hand-stitched leather inserts. Every material has been chosen for its texture, weight, and quiet allure. What makes it truly unique is its freedom of form: it has no fixed position, no front or back. It can rest on any of its faces, allowing the user to reinterpret its shape according to mood, light, or instinct. At Vèlle, we believe that beauty does not reside in symmetry or perfection, but in the freedom to see it from every angle. A daily object that transforms the workspace into a place of expression and refined simplicity.

MATERIAL: Brown leather

SIZE: 14x11,5x14 cm

PRICE: 7,995 RON

Designed to preserve the energy and mechanical integrity of your automatic watch, this winder trunk combines refined aesthetics with cutting-edge Swiss technology.

Wrapped in fine leather with contrasting stitching, it features a high-precision Swiss rotation mechanism controlled via a dedicated app. Easily program the ideal rotation settings for your specific timepiece, ensuring it stays perfectly wound and ready to wear.

*Handmade in Italy.*

Where art meets precision.

This exceptional watch winder is more than a mechanical accessory—it is a tribute to the harmony between form and function. Inspired by Leonardo da Vinci's Vitruvian Man, its unique motion replicates the natural movement of the wrist with anatomical perfection, ensuring your automatic watch remains constantly charged and ready to wear.

Encased beneath a hand-blown glass dome, the timepiece becomes the focal point of a sculptural display. The transparent cover not only protects the watch, but enhances its beauty—offering a stage where craftsmanship, innovation, and timeless elegance converge.

A refined object for collectors and aesthetes alike—engineered for precision, designed to be admired.

SCALE MODELS

This 1:12 scale model pays tribute to the timeless elegance of the Porsche 356

A Speedster, a car that embodies the spirit of open-top driving and minimalist

design. Introduced in the mid-1950s, the Speedster was developed in response

to the demand for a lightweight, affordable sports car, particularly in the

American market. Its distinctive features include a low, raked windshield,

minimalist interior, and a sleek, aerodynamic body.

This model represents the convertible version, finished in a sophisticated

black exterior with refined beige interiors, perfectly capturing the understated

luxury of the original.

This 1:12 scale model pays tribute to the Porsche 550A Spyder, a car that solidified Porsche's reputation in motorsport during the 1950s. Introduced in 1956, the 550A featured a lightweight spaceframe chassis and a 1.5-liter flat-four engine producing approximately 135 horsepower, enabling it to compete successfully against larger, more powerful rivals.

This model represents the open-top version, finished in a classic silver exterior with rich burgundy interiors, capturing the minimalist and purposeful design of the original.

The 550A's agility and performance led to significant victories, including an overall win at the 1956 Targa Florio, marking Porsche's first major international triumph.

This 1:12 scale model celebrates the timeless elegance of the Riva Aquarama, a true symbol of Italian “dolce vita” and an icon of luxury boating. Launched in 1962 by the Riva shipyard on Lake Iseo, the Aquarama was produced until 1996 in various versions, including the Aquarama, Super Aquarama, and Aquarama Special. Characterized by its polished mahogany hull, refined chrome details, and impeccable craftsmanship, the Aquarama has often been called “the Ferrari of the seas” for its performance and style. This model faithfully represents the classic version, featuring a lustrous mahogany hull paired with elegant white and light blue interiors, capturing the spirit and sophistication of the original design. Every element, from the padded seats to the automotive-style dashboard and helm, is meticulously reproduced.

Only the most skillful hands can turn natural materials into everyday yet original and absolutely unique objects. These hands belong to the craftsmen that every day, in Italian workrooms, have been shaping up materials of unmatched beauty such as horn, bamboo, wood, mother of pearl...selected for their special character. The result is represented by valuable products, designed to be long lasting and to grow old together with the people who bought them: things to love and to maintain, to pass on to younger generations as if they were little treasures for everyday life.

## UMBRELLAS

Since 1956, in the countryside of Mantova, the art of Italian luxury umbrella making has been passed down from generation to generation, preserving a tradition of craftsmanship that transforms everyday objects into timeless treasures. Each piece in this extensive collection is a single masterpiece—entirely handmade in Italy—celebrated for its unique designs, refined styles and exquisitely crafted handles. Guided by creativity and an ongoing search for exceptional, exclusively Italian materials, these umbrellas embody the elegance, innovation and heritage that define true luxury.
